

## **Community Action Morfa Garden Project**

Morfa Youth Forum have been successful in achieving the Youth Work in Wales Excellence Award for their hard work.

The Community Garden Project, where more than 30 young people participated during a fortnight last July impressed the panel with the quality it displayed, which enabled it to stand out from more than 80 other projects.

This means the project has also been short-listed for the Premier Award which could mean an additional Cash Award for the group.

The project was funded by The Big Lottery Fund, ENFYYS Grant, in partnership with Foothold Community Specialists and Carmarthenshire Youth Service, and was designed and constructed with the assistance of BTCV Cymru, The Prince's Trust Cymru, Foothold Recycling and Street Scene.

“ This is a very prestigious achievement for the Youth Club and proves that with a little bit of grafting young people can achieve great things for their community” said Kelly Anderson, The Foothold Group.

The Community Garden lies adjacent to The Bwlch Rangers Club/ Morfa Youth Centre, and is well worth a visit.
